CARBO-MAX 1000 High Flow Bulk CO₂

The **MVE Carbo-Max 1000 High Flow** system is an innovative bulk CO₂ system that meets the demands of high volume customers such as brew pubs, micro-breweries, stadiums, cine-plexes, and large volume restaurants.

Product features include:

- Internal vaporization coils with continuous flow rates up to 30 lbs/hr
- Higher flow rates achievable with external vaporization
- Internal pressure building system to maintain higher flows
- 1,000 lbs of CO₂ storage capacity
- 30" diameter and 72" height allowing tank to fit through standard doorways
- Lifting rings, which are standard, with an optional steel forklift base available

The Carbo-Max 1000 high flow system is also an excellent system for large-volume pH control applications such as commercial swimming pools, water parks, and ready mix concrete plants.

CO₂ Tank Storage Cabinet

Chart's **CO₂ Tank Storage Cabinet** is used to cover Chart Beverage CO₂ tanks in outside installations. It provides added security for outside installations and blends with the surrounding architecture.

NEW CASE STUDY Carbo-Mite 220 Bulk CO₂ System

NATWEL SUPPLY CORP.

MVE BULK CO₂ FOR RESTAURANTS

CARBONIC SYSTEMS INC.

CASE STUDY #15

COASTAL CARBONIC

Problem:

High-pressure liquid CO₂ storage containers are expensive and cumbersome to switch out for low-volume users and there were few cost-effective options for Chart beverage CO₂ distributors to market to locally-owned, under 60 lb/mo. CO₂ users.

Automated Shipment Notifications

Chart is pleased to announce **Automated Shipment Notification (ASN)**, a communication tool for our Industrial, Beverage, and Biomed customers. Within the next few weeks customers will start receiving, by email, an ASN when their ordered product has shipped from the Chart factory. The ASN will provide the customer with details that include the item number, their PO number, the carrier's name, and the tracking number, so they will be able to track the shipment directly with the carrier.

Automated Shipping Notice

We are always looking for ways to improve our customer service! Should you have any questions about the ASN process, feel free to contact Chart's Customer Service Department at 800.247.4446.

NEW Chart Parts Website!!!

We are excited to announce that Chart Parts launched its NEW PARTS WEBSITE on October 9 using the same web address of www.ChartParts.com. The new site offers a new look and feel, easy navigation, an improved check-out process, and still maintains the popular Parts Points Program.

Chart will continue to enhance the product offerings and informational content on this site. Place your next parts order online, experience the changes we made, and enjoy the frequent shopper benefits of our Parts Points Program.

IMPROVED Analox Monitoring System

The **ANALOX 50** provides continuous, accurate monitoring of CO₂ levels to ensure a safe working environment for employees and suppliers. It is a proven system with over 80,000 units installed worldwide, and has now been upgraded to include a relay on Alert 1 set at 1.5% CO₂ levels.

Check out the NEW specification sheet linked below or call Customer Service at 800.247.4446.
