Product Manuals

Chart Product Manuals are available at www.chartparts.com by clicking on Support and selecting Manuals. Archived manuals are also available for each product line.

Design Change Notifications

Communication on design updates of our equipment can be found on www.chartparts.com by selecting Support and clicking on Design Change Notifications.

Latest Design Change Notification:

Perma-Cyl models to eliminate rubber stoppers on the pallet bases as standard supply. [Click here to view DCN-102](#)

Technical Service

Perma-Cyl® MicroBulk Storage System

The innovative Perma-Cyl 5500 Storage System is the latest addition to the Perma-Cyl product line.

The 5500 is available in MP and VHP operating pressures. Both versions are engineered to supply up to 5000 SCFH to satisfy the most demanding gas applications. The MP model has a VJ withdrawal valve option.

FABTECH 2016
Las Vegas
Nov. 16 - 18

Chart Inc. will be celebrating 20 years with the Orca™ MicroBulk Delivery System at FABTECH!

Visit our booth N2314 in the North Hall at the Las Vegas Convention Center.

Attend our webinar and drawing at the WEFTEC tradeshow on Tuesday, September 27 at 4:00 p.m. for a chance to win an iPad Mini or YETI Rambler Colster!

Applications Focus:

Cryosauna

The cryosauna is a single-person cryogenic chamber used for individual treatments of whole body cryotherapy. Chart's [Dura-Cyl® Liquid Cylinders](#) and [Perma-Cyl® MicroBulk Storage Tanks](#) are a perfect fit for the cryosauna application where a two liter-per-minute flow of liquid nitrogen is required. For detailed

Bulletins

Communication on Technical Information for users of our equipment can be found on www.chartparts.com by selecting Support and clicking on Technical Service Bulletins.

Latest Technical Service Bulletin:

Cellular Board upgrade to 3G needed by Dec. 31, 2016. [Click here to view TSB-TEL-1008](#)

Changing Faces at Chart

Ryan Haecherl has accepted the position of Technical Service Representative for D&S Americas.

Juancho Tabangay

has returned to Chart as the Sales Manager for our Liquid Nitrogen Dosing products.

Siphon 100® Bulk Storage Tank

Now available in 1500 gallons!

The Siphon 100 system combines two revolutionary technologies: a Thermal-Siphoning system that reduces and reprocesses the heat from pumping and our Composite Super Insulation™ to reduce the heat transfer from the atmosphere.

Chart's New Marketing Services Website

Do you need to improve your marketing?

Customized Literature

- Download Images
- D&B Hoover's Leads
- Customized Posters
- Software Sales Tools
- Direct Mailers
- Business Cards
- Product Videos

Distribution & Storage Distributor Marketing Services Website

Chart's new and improved [Distributor Marketing Services Website](#) allows you to personalize brochures and specification sheets with **your** local contact information and company logo. It also allows you to order larger literature orders, customized posters, business cards, prospect generation, videos, images, calibration charts, software programs and much more. This site is similar to our previous site, but is much more user-friendly for customizing and downloading documents. **At this time there is no cost to you.** We look forward to assisting your sales team!
For more information, send an email to newprague.literature@chartindustries.com and note the subject as "Marketing Services Website Access".

Chart Tank Sizing App

The Chart Tank Sizing App provides assistance in the proper tank sizing of a gas account during a mode-change to cryogenic storage equipment by asking important inputs unique to the account and the gas supplier. The Chart tank sizing app is designed to work for Nitrogen, Oxygen, Argon and Carbon Dioxide service with one gas per sizing. From your Smart Phone or Tablet, use the appropriate link or QR Code to download the Chart tank sizing app today!
