

# Design Change Notification

**Date:** 6/10/2016

**Document #:** DCN-101 VGL™ to Econo-Cyl™ Liquid Cylinder Model Transition

**Subject:** Effective 5/30/16 the Chart VGL models were rebranded as Econo-Cyl models

**Background:** Up until the listed transition date, Chart sold 4 models in the VGL family as listed below. Because the VGL name was synonymous with general liquid cylinders in the past, and confused some customers, we decide to rebrand the models as Econo-Cyl™ Liquid Cylinders.

**Products Affected:** VGL-180HP PBER renamed Econo-Cyl 180HP MCR  
P/N 14880547 changes to 21006068

VGL-200HP PBER renamed Econo-Cyl 200HP MCR  
P/N 14880555 changes to 21006073

VGL-230HP RB PBER renamed Econo-Cyl 230HP RB MCR  
P/N 14880563 changes to 21006074

VGL-230HP SB PBER renamed Econo-Cyl 230HP SB MCR  
P/N 14880571 changes to 21006075

**Description:** In addition to the name change, the Econo-Cyl models will now be supplied with the upgraded MCR (Micrometer Calibrated Regulator) style regulator. This facilitates easy adjustment of the regulator set pressure without removing it from the cylinder. This MCR style regulator is exclusive to Chart. Other than these two changes, the Econo-Cyl models are built to the same high standards that are associated with Chart products.

**Contact:** If you have questions or concerns relative to this action, please contact your Chart Customer Service Representative at (800) 400-4683. Thank you for depending on Chart to provide high product quality and service.
