## Beverage and Liquid Cylinder

## Bulk and Mobiles

### World Class Facilities

Chart's after-market support is world class, offering installation, repair and OEM replacement parts for every product we manufacture and more. Installation service from our experienced team guarantees the job is done right the first time and on time. Our repair facilities are integrated with our manufacturing sites so the latest updates in equipment design and manufacturing processes are always built into your repairs. Keep your equipment operating smoothly with Original Equipment Manufactured parts from our Parts Distribution Center. Parts are available for all makes and models, with same-day shipment on stock parts. Our Parts website makes it easy to find the right parts fast!

#### **Northern Repair Facility - New Prague, MN** **Field Service, Chart Parts, Bulk, Mobiles, Railcars, MicroBulk, & Trifecta® Gas Supply System Repair**

For installation, turn to the same Chart team that builds your tanks. For immediate shipment we stock OEM and after-market parts for liquid cylinders, beverage cylinders, bulk tanks, high-pressure fill plants and other cryogenic and gas applications.

#### **Eastern Repair Facility - Ball Ground, GA** **Beverage, Liquid Cylinder, MicroBulk & Trifecta Repair**

The Chart team that builds your cylinders also repairs them. Our staff is dedicated to repairing your cylinders to the same reliable standards on which they were built.

#### **Southern Repair Facility - Houston, TX** **Bulk, Mobiles, MicroBulk & Trifecta Repair**

Our expertise in vacuum investigation, re-insulation and piping repair ensures that your tank or trailer is restored to full operating conditions. We prepare a formal estimate for authorization prior to initiating work, including pictures of the proposed repairs.

#### **Western Repair Facility - McCarran, NV** **Bulk, Mobiles, Beverage, Liquid Cylinder, MicroBulk & Trifecta Repair**

This repair location strategically services our Western region accounts on over 15 acres with 43,000 square feet ready to service all your equipment. This is our newest state of the art facility.

### Ball Ground, GA & McCarran, NV

Quality service and 100% satisfaction is what you'll get when you send your beverage and liquid cylinders to Chart for repair.

Now you can have your cylinders repaired by the same team that builds them. Located in Georgia and Nevada, our repair centers are dedicated to restoring your cylinders to the same quality standards you expect from Chart.

### Used Tank Program

Chart maintains a supply of pre-owned storage tanks available for sale. Each tank is rehabbed to the customer's specifications and carries Chart's warranty for vacuum and standards for workmanship and quality.

### New Prague, MN Houston, TX McCarran, NV

Our fully equipped facilities are strategically located in Minnesota, Texas and Nevada, where we're staffed to repair and rehab all makes and models of cryogenic tankage and CO<sub>2</sub> vessels.

Skilled in vacuum investigation, re-insulation and piping repair, our workers restore your tank to full operating condition. We prepare a formal estimate for authorization prior to initiating work, including pictures of the proposed tank repairs.

### Orca™ Delivery System Rental Program

Chart has initiated a MicroBulk delivery rental program allowing customers to rent an Orca XT-2500 trailerized unit in LIN, LAR or LOX service while rehab, remount or repair work to their existing equipment are being made at one of Chart's repair facilities. Optional on-site training is available.
