

July 31, 2025

Dear Customers and Partners,

We are pleased to announce that AdEdge Water Technologies, LLC ("AdEdge") and BlueInGreen, LLC ("BlueInGreen") have officially merged into a new legal entity under our existing parent company, Chart Industries, Inc. ("Chart").

Effective July 31, AdEdge and BlueInGreen are now operating as **ChartWater, LLC**, a wholly owned subsidiary of Chart. While our legal structure has changed, there are no changes in ownership.

Since their respective acquisitions, AdEdge and BlueInGreen have worked jointly under the **ChartWater™** brand, offering a unified portfolio of proven and innovative water treatment solutions. This merger into a new legal entity reinforces our commitment to serving you more efficiently through streamlined operations and enhanced synergy. Please note that your existing points of contact are unchanged.

Over time, the **ChartWater** logo will be featured more prominently than the AdEdge and BlueInGreen logos; however, both brands—and their distinctive technologies—will remain and continue to be supported.

As there is no change in ownership, existing documents do not require retroactive updates. Moving forward, please address all new documents (such as purchase orders) to:

ChartWater, LLC  
2055 Boggs Road  
Duluth, GA 30096

Please continue to remit payment in the same way you do today.  
For sales inquiries, continue to use [chartwater@chartindustries.com](mailto:chartwater@chartindustries.com).

Thank you for your continued trust and partnership. We look forward to delivering even greater value as ChartWater, LLC.

Sincerely,

A handwritten signature in blue ink, appearing to read "T. Butel".
