

Design Change Notification

Date: September 23, 2025

Document #: DCN-149 Economizer Model Change

Subject: Starting October 2025, Perma-Cyl MicroBulk Storage System tanks will change from Emerson FRM and FRM2 economizers to Rego 602 economizers. This conversion will take place over several months. The conversion is planned to be completed by January 31, 2026.

Background: The FRM and FRM2 Economizer regulators manufactured by Emerson have been used successfully on Chart products for many years. Due to several factors, Chart has decided to change suppliers for these regulators. Testing has proven that the Rego 602 regulator meets all the performance specifications for the products it will be used.

Products Affected: Perma-Cyl Flex Fills, Perma-Max, Perma-Cyl 450ZX, and VHRs

Description:

Perma-Cyl 1000/1500/2000/3000 Flex Fill 03 option			
Current		New	
Part number	Description		
11501177	BACK PRESS VLV BRZ 1/4"@140PSI	22476574	REG ECON MOD 1/4NPT GKT 140PSI
