

# Aftermarket Services for Gas Compressors

Minimizing costs and downtime by maximizing the efficiency, availability and safety of your assets across India.

# Proactive maintenance solutions tailored to improve financial returns deliver peace of mind and maximize safety. With Howden India, you gain a partner committed to your success, backed by decades of experience and a nationwide network of expertise.

---

We service centrifugal blowers and compressors including screw, reciprocating, diaphragm and centrifugal models.

Howden's brand portfolio includes Thomassen, Peter Brotherhood, Burton Corblin and KKK.

Services include routine and preventative maintenance, shutdowns/turnarounds, major overhauls, repair, retrofit, performance upgrades, testing, trouble-shooting, engineering support, field erection and commissioning, technical studies, training, digital performance monitoring and emergency assistance.

## Our Service Philosophy

Every service we provide is built on four pillars:

- **Parts:** We supply genuine OEM components, leveraging the latest technological advancements to guarantee safety and performance.
- **Presence:** Our factory-trained engineers and service centers ensure rapid response and expert support whenever and wherever you need it.
- **Precision:** From diagnostics to planning and execution, we deliver accurate, reliable solutions that keep your operations running smoothly.
- **Prevention:** Through long-term service agreements, condition monitoring, and proactive upgrades, we help you stay ahead of potential issues before they impact your business.

Knowledge and expertise when you need it - on-site and remote technical support.

## Our Commitment

We are proud that Howden compressors are at the heart of India's critical industries. We understand that downtime is costly, reliability is non-negotiable and safety is paramount. That's why we offer comprehensive aftermarket services designed to minimize costs, reduce downtime, and extend the life of your equipment. From installation and commissioning to troubleshooting, overhauling, and performance assessments, our solutions are tailored to keep your assets running at peak efficiency.

## Industries Served

- Oil & Gas
- Petrochemicals
- Iron & Steel
- Cement
- Water
- Power
- Fertilizers

## Outage Solutions

Our outage management services bring together a wide range of technical expertise to simplify complex projects. Through careful planning and risk management, we help you avoid lost revenue, reduce the risk of future failures, and restore plant performance quickly. Every solution is optimized for scope and delivered within the tightest timescales, ensuring maximum return on investment.

## Repair and Reconditioning Services

Howden India provides a full spectrum of solutions regardless of make or model. Our OEM expertise ensures that every component is restored to the highest standards, backed by performance guarantees. Services include valve reconditioning, piston rod thermal coating, stuffing box repairs, cylinder

restoration, crankshaft machining, and piston refurbishment. For non-lubricated applications, we offer our proven FFP technology to enhance reliability and efficiency.

## Upgrades and Retrofits

When your equipment needs to keep pace with changing process demands, Howden India delivers. Our upgrade solutions incorporate the latest technologies to improve capacity, reduce emissions, and enhance energy efficiency. Whether you're looking to boost performance or extend the life of your assets, our retrofit programs ensure your equipment remains future-ready.

## Digital Solutions – Howden Uptime

Predictive maintenance is no longer optional, it's essential. Howden Uptime combines advanced analytics, AI-driven insights, and

digital twin technology to monitor your equipment in real time. By capturing and analyzing sensor data, we help you optimize system integration, schedule maintenance proactively, and prevent unplanned downtime. Remote diagnostics and continuous monitoring by Howden experts ensure maximum reliability and availability.

## CPI

Howden India supplies lubrication products, valves and other components manufactured by company owned compressor specialist CPI, including the renowned Proflo®, EMISSIONGUARD™, Hi-Flo™ and SAFEGUARD™ items.

Field service base is in Pune providing nationwide coverage and supported through regional facilities in Noida, Chennai, Hosur, Sri City and Hyderabad
